## Brookside Seepage Not Polluted Health Department Tells Board

SAN DIEGO (CNA) — The County Health Department has again reported that it can find no traces of man-caused pollution in Brookside either at Fairway Drive or at Par Drive.

W. B. Walshe, chief of the division of sanitation, said the check for possible contaminated water was made on Aug. 4 and was negative. A trace of detergent was found at two locations but was considered negative.

The five, Walshe said it could be expected to come from the washing of automobiles.

Walshe said the conclusion was the same as on previous occasions that neither drainage ditch was a public health problem.

The board also decided that it would not honor the request of the Brookside Mothers' Committee for concurrent testing of

the water with a private laboratory.

Supervisor Robert Cozens said he felt the health department has done a good job of protecting public health and

saw no reason to suggest they use other methods.

The committee had also asked for copies of minutes and other documents concerning the long-standing problem. The board decided it would merely

inform the committee that the documents are public record available for inspection.

Supervisor Henry Boney said a truck would be needed to carry all documents related to Brookside drainage problems.

Empty tubes of plastic cement, used for construction of model airplanes, and cars, were found on the ground near the vehicle, which belonged to Hobbs.

The car reeked of the smell of glue, according to the deputies' report.

## Fire Film On Riots Scheduled

Fire Chief Bob Sever of the La Mesa Fire Department will discuss problems faced by fire departments in times of civil disorder Friday at the noon meeting of the Lemon Grove Men's Club at Brunswick Bowlero.

Chief Sever will be accompanied by La Mesa Fire Marshall Bill Osborne. The film "Fire-fighting Under Riot Conditions" will be shown. It was produced by the Los Angeles Fire Department in last year's Watts' riots.

Dick White of the San Diego Gulls professional hockey team showed a film on ice hockey and spoke about the Gulls' forthcoming season at last week's meeting.

## National Crime Info Center Established

"Mobility of the criminal in our society makes it absolutely necessary for law enforcement agencies to have immediate access to information which will enable them to apprehend law violators," Highway Patrol Commissioner Bradford M. Crittenden said today.

"A system to do just that will become operational in January of next year," Crittenden said. "That system is the National Crime Information Center."

The nucleus of this system will be the computers of the Federal Bureau of Investigation in Washington, D. C. Police agencies of cities and states throughout the nation will be connected to the system, and this immense amount of information will be available to any member.

Governor Edmund G. Brown has assured California's participation in the NCIC system, which was patterned after the Patrol's own Auto-Stat, a system for recording and disseminating information on stolen and wanted vehicles.

Initially, data on stolen autos, property and wanted persons will be included. Other information will be added as the system develops.

The CHP Headquarters in Sacramento is the switching point of the system for the western United States. Police agencies with inquiries will contact the Patrol. If the information is not available in the Patrol's records the query will be relayed directly to the FBI in Washington. The entire process will only take a few seconds.

This will give the man on patrol a nationwide system of information to draw from.

The NCIC is another step forward in the adaptation of modern technology to the problems of law enforcement," Crittenden said, "and the system has the wholehearted backing of law enforcement leaders in California."

## Grove Man Is Marshal At 'Fiesta'

A. E. (Bob) Howell, a Lemon Grove businessman who is nationally known as a parade marshal, was honorary marshal at last week's "Old Spanish Days Fiesta."

The event was held Thursday at Santa Barbara.

The following day in a "Cabalgata," mounted paraders promenaded in costume and trappings in competition. Howell was judged "Best Spanish Man." He won a similar award there four years ago. Contestants were judged on the basis of mount, costume and equipment. Mrs. Howell made the costume, Howell said.

Howell was asked to bring word back to San Diego that the people of Santa Barbara regret the death of San Diego's Fiesta del Pacifico.

## Mayor Curran To Speak Here Two Times

Frank Curran, the mayor of the City of San Diego, will make two appearances in Lemon Grove during the next few weeks.

He is scheduled to speak to the Lemon Grove Rotary Club Aug. 22 regarding problems San Diego voters will resolve at the November elections. Lemon Grove residents do not vote in San Diego elections but "they form a strong sphere of influence as they work and shop in San Diego," the mayor said.

Mayor Curran will address the regular monthly meeting of the Lemon Grove Chamber of Commerce Sept. 6. Program chairman Stephen Tallion said the mayor will discuss the annexation of Lemon Grove to San Diego.

## Sups. Raise Nurses Pay

SAN DIEGO (CNA) — County Supervisors raised the pay for registered nurses 20 percent and other personnel 15 percent at the County Hospital. Top paid nurses will get \$587 a month instead of \$483.

Supervisors also agreed to pay one fourth of the cost of installing traffic signals at State 94 and Broadway. The State will pay three fourths.

Also approved was the request of the Grossmont Hospital District for consolidating an election with the general in November. Homer Streich and Charles Hesser, two trustees, will face re-election at that time.

## Moore Wins With Rabbits

Glen Moore of Spring Valley has been selected by a County 4-H committee to enter state competition for trip awards to the National 4-H Club Congress in Chicago Nov. 27-Dec. 1. Moore was the County winner in rabbits.

## Truck Rates To Increase

The California Public Utilities Commission announced that it has authorized increases of 3 1/2 percent in the minimum rates for hauling general commodities within the San Diego drayage area effective Sept. 10.

Increases of 3 1/2 to 5 percent had been sought but the commission found after public hearing that only the lesser amount was justified.

The higher rates were requested in a petition of the California Trucking Association to offset higher labor costs.

The San Diego drayage area includes San Diego, National City, Chula Vista, Lemon Grove, El Cajon, La Mesa, Coronado, Imperial Beach and Del Mar.

**HOSPITAL FACILITY** — Work will commence in the near future on the Administration Building of the Grossmont District Hospital, it was announced by L. F. Bristol, administrator of the hospital. In addition to administrative offices, the two-story 13,000 square foot building will provide facilities for the Pink Ladies Auxiliary, a doctors lounge, and space for medical records. Cost estimate is from \$225,000 to \$250,000. Architect on the project is Richard George Wheeler, AIA & Associates, with John Ruskin serving as structural engineer. It is anticipated that the building will be ready for occupancy in about six months.

## Blue Chip Bowling Flourishes Despite El Cajon Arrests

The El Cajon Police Department recently arrested two Parkway Bowl officials on charges of holding a lottery.

The charges stemmed from the lane's blue chip bowling — bowling for blue chip stamps. The El Cajon Police Department charged this was a violation of state and municipal law.

Other bowling facilities throughout the County hold trading stamp bowling, including Lemon Grove's Brunswick Bowlero.

Hal Tracy, Brunswick Bowlero manager, said the blue chip

stamp bowling works this way: "The bowler bowls three games for \$2.50. There are colored pins placed in the 1-10 pin set-up. If they get a strike when the headpin is a certain color, they get 100 blue chip stamps. Prizes range from 25 to 25,000 stamps. (The latter is for converting the 7-10 split providing the pins are a certain color.)"

Tracy also said, "I can't see how it (blue chip bowling) can be classified as lottery. It takes a lot of skill to knock down these special arrangements of pins."

He said Brunswick Corp. has blue chip bowling in "most of its houses." He added blue chip bowling will continue Tuesday, Wednesday and Sunday nights at Brunswick Bowlero.

Sgt. Bob Ryan of the County Sheriff's Department said his department would "wait until the case in El Cajon comes up." He said if El Cajon can prove the lottery charges under a state law, immediate action would be taken to stop the blue chip bowling.

But until then, it will continue.

### The 'Gentle' Art of Politics

As an observer of the carryings-on in the "smoke filled room" of the political world we can visualize the fine needlework of Governor Brown's current campaign.

First, when it appeared that George Christopher would be the Republican nominee, Brown's staff opened the records and found that Christopher had suffered an arrest during the war. The arrest was the result of a milk-dilution charge involving a dairy he owned.

While Brown's staff publicized the record, Christopher's campaign disintegrated and he was no longer a contender.

But Ronald Reagan came on strong. Too strong, in fact. It was said that Brown journeyed to Washington and moaned to his good-and-great friend LBJ that he was likely to lose the state. President Johnson needs to lose California to the Republicans like he needs another Bobby Baker.

It takes little contemplation to imagine what happened in Washington. Probably the smoke filled room included Pierre Salinger, a part-time California senatorial candidate, and some of the ramrods who got Kennedy elected and later who got LBJ re-elected.

Squint your eyes and take a deep draw on a Havana cigar and you can hear LBJ saying "Boys, we gotta save California for Pat. What do you think we ought to do, Pierre?"

Pierre, would have responded: "Pat, why don't you get my good friend Alan Cranston to do a piece on the Birch Society. He did one on Hitler's 'Mein Kampf' during the war when he was a war correspondent for INS."

"What good will that do?" the good governor very properly would have asked.

"If he charges the Birch Society with anti-semitism, anti-Catholicism, and racism, every Bircher in the state will hit the ceiling. There'll be more word-battles going on than at a woman's club's financial meeting."

"But Alan isn't running against Reagan, and I fail to see —," the governor responds.

"When things have reached the crescendo, we'll have Alan contrive a public confrontation with Reagan. We'll have reporters tipped off, and photographers on the job. We'll have Alan shove his report in Reagan's face and demand to know what Reagan thinks about it."

"Why should Reagan debate with Cranston publicly?"

"Well, 'Pierre might have said,' he won't have to. All we want to do is to attract Reagan's attention."

"Then," the President would opine tentatively, "if he as much as opens his mouth he's a cinch to lose a big wad of supporters. He'll lose all of the Birchers or all of the anti-Birchers" (Continued on Page 6)

# TODAY'S Meditation

from The World's Most Widely Used Devotional Guide

Read Romans 12:1-8

I implore you by God's mercy to offer your very selves to him: a living sacrifice, dedicated and fit for his acceptance, the worship offered by mind and heart. (Romans 12:1 NEB).

One day I gave to a man a small pocket cross made of aluminum. "Carry it in your pocket with your change," I said to him. "You will see it often, and it may remind you of your duty to use your money in the spirit of the cross."

When next he saw me, these were his words: "I had to file down the edges of that pocket cross, it was cutting a hole in my pocket."

Is that not exactly what we do so often? We "file down" the cross of Christ; we want to make it smooth. We prefer not to bear the real cross; we dislike its cutting edges in our lives. Yet this is what the cross of Jesus is. When it is more than a symbol, it does something to us. When we take it as a way of life, it requires something of us.

Prayer: Dear God, help us this day not to turn away from the cross. Give us Thy grace to live by it in all our goings and doings. In the blessed Savior's name we pray. Amen.

Thought for the day: It is better to be good stewards than to try to change the demands of the cross.

## Picnic, Minstrels Spark Starlight Presentation

An old-fashioned family picnic with lots of fun and entertainment will precede the opening of Starlight's "Tom Sawyer" this Thursday," Mrs. Lauren C. Post, San Diego Civic Light Opera president, said.

Families can bring their picnic dinners to the green around the foreign-land cottages, opposite the puppet theater at 6 p.m., when the Starlight concession stand will open to sell coffee and soft drinks, she said.

Touring the picnic area and singing songs from this season's productions will be the following Starlight performers: seven-year-old Rose Mary Bakich who sang "The Other Generation" in "Flower Drum Song", guitarist and folk singer Jeff Runyan who will play one of Tom's friends in "Tom Sawyer", Linda Howard from "Flower Drum Song", jazz singer Laura Rodriguez who is Ma Callahan in "Tom Sawyer" and Pat Zambrano who will play the lead in the Next Starlight production "South Pacific", all accompanied by pianist Mrs. Pauline Geason Leib.

The entertainment will end before the 8:30 curtain of Frank Luther's musical adaptation of Mark Twain's novel, "The Adventures of Tom Sawyer".

Tom (Ellard Davis) and Huck Finn (George Winters)

witness a ghastly murder and flee to an island to find later that the whole town is looking for their bodies in the river. The boys panic and return home to attend their own funeral. When they are discovered they set out to look for the murderer Injun Joe (Joe White).

Even while the situation is getting worse for Tom and Huck, Becky (Priscilla Calderon) and Mary Ann (Michele McCann) manage to convince them that romance is not impossible for two Hannibal, Missouri lads.

Others in the cast include Bette Laws as Aunt Polly, Phil Mann as Muff Potter, Charles Whiting as the sheriff, Victor Nelson as Doc Robinson, John Bell and Evonne Noll as Mr. and Mrs. Joe Harper.

"Tom Sawyer" moves along with such songs as "The Big Missouri", "New Girl In Town", "Girls Can't Lie Worth A Nickel" and "I Wanna Go Home."

The musical comedy is the third Starlight production for the summer season. Rodgers and Hammerstein's "South Pacific" will be presented Sept. 1 through 11.

Tickets for the 8:30 performance are available at the Community Concourse box office or at the Bowl on performance nights.

Robert Kloppenburg has been appointed Acting Chairman of the Department of Physical Ed-

ucation and Athletics while continuing as head basketball coach.

The 30-year-old Dinaberg, a native of Los Angeles, attended Hamilton High School and Santa Monica City College before matriculating at UCLA. ## Bullfights: Accent On Youth

The accent is on youth again this week at the downtown bullring in Tijuana as youngster Rafael (Chito) Munoz challenges matadors Mauro Liceaga and Emilio Rodriguez.

Last week honors went to newcomer Armillita who won a pair of ears to best two veterans.

Munoz was the star of Mexico City's novice season last year and he won his promotion to full matador after he cut ears and tail in the final novillada.

Chito, as he is known, is competent in all phases of his art, but is especially noted for placing banderillas and his swordsmanship.

## Superstition Jinxed On Fifth Run

Lemon Grove's racing team of Travis Killalea failed in its bid for a fifth straight top eliminator win at San Diego Dragway in Ramona last week.

The Travis Killalea dragster "Superstition" developed mechanical difficulties at the line and failed to start in a heat race.

However, one Lemon Grove driver found the winning formula. Carl Hayes piloted his Chevrolet to top Hot Rod Eliminator recording of 110.42 miles per hour and an elapsed time of 12.48 seconds.

In a special best-of-three match race, Palamides' Jet Dragster topped the AA Fuel Dragster champion "The Joker" owned and driven by San Diego's Ray Shoults.

The "Untouchable", the jet-powered dragster, rocketed through its third run in record time of 241.93 mph and 7.09 e.t. This week Randy Walls of El Cajon will match his 1965 Chevy II blown and injected 396 fueller "Super Nova" against "Willie's Pie Wagon" of Chula Vista.

Mauro Liceaga will provide the young newcomer with plenty of competition. His biggest crowd pleasing tactic has been the daring style with which he puts in the colored sticks.

Liceaga won the Golden Ear award in 1965 and earned two ears in his last appearance here.

## Site Chosen For Gulls' Training

Max McNab, general manager-coach of the San Diego Gulls has selected Chilliwack, British Columbia, Canada, as the training site for the new Western Hockey League team.

Chilliwack is a resort community 60 miles east of Vancouver and 30 miles north of Sumas, Wash.

The Gulls will report for physical examinations Sept. 23 and start two-a-day practice sessions the next day in preparation for their WHL debut Oct. 14 at Vancouver.

The Gulls will make their debut in San Diego Nov. 17 against the Seattle Totems.

It will be the first event in the new 6.5 million San Diego International Sports Arena, now being completed in the Midway-Frontier section of Pt. Loma.

The Arena will have a seating capacity of 13,500 for hockey. Each seat will be an individual, fully-upholstered theatre-type chair.

The fully air conditioned Arena also will have 33 acres of parking for more than 4,000 cars.

Season ticket information may be obtained at the Gulls' office, 3475 Frontier St., or by calling 224-4171.

Emilio Rodriguez is an experienced performer with the ability to control the bull and kill promptly.

Bulls for the performance will be from Las Huertas ranch.

Youth prevailed here Sunday at the downtown bullring as young Armillita won two ears from each of his bulls.

Jaime Rangel earned a lap around the ring, while Humberto Moro heard boos for his inability to kill quickly.

Armillita displayed good cape and muleta style and excited fans with his kneeling passes and domination of his bulls. He dropped each of his bulls with a single thrust.

The Bank of America has opened a branch in Saigon.

## Gold Cup Handicap At Caliente

The most coveted prize in Caliente's trophy case will be the target of a field of 100 runners from both sides of the border Sunday when the track offers its 12th running of the \$7,500 Gold Cup Handicap.

An invitational affair to be conducted over the mile and one-sixteenth course, the Gold Cup is one of the major stakes on the annual calendar, and because it usually brings together comparable horses from Caliente and Del Mar, it is recognized among the foremost turf features of the summer season.

Among those from the sea side course expected to be invited are such former Caliente gallopers as Ercho, High Wheeler and Fabaiser. It's likely that bids also will go to performers like Funade, Dugwin, Physician, Cover Wave, Jongleur and Sky Country.

The Caliente delegation will be chosen from among Horse Shoes, Buonarroti, Workout, Mi Belle, Calburn and All's Rainbow, and of this group the latter appears to be the solid threat. Just last Sunday he scored his first Mexican victory by turning a mile in 1:35 2/5 and beating the highly-regarded Buonarroti by a neck.

The Committee on Religion and Race of the Presbytery of Los Angeles of the United Presbyterian Church, U. S. A., has called for support of national fair housing legislation.

## Bowling For Better Scores

By Evelyn Teal.

1964-65 All American Team

## A Bowler's Starting Position 1st of Seven Articles

Assuming that you are properly dressed for bowling and that you have a ball that is fitted to your hand and one you can control, you are ready to start bowling. The first thing you should do is to determine your starting position.

To find your starting position, I suggest that you go to the foul line and place your heels two or three inches from the foul line. Now walk back four natural steps, take another half step to allow for your slide, turn around facing the pins and that is your starting position. Star bowlers call this the "point of origin," and regardless on what lane, in what establishment, or in what city you might be, the point of origin will always remain the same. You might have to modify it a few inches or so, at first, but once you have found your point of origin, it should never change. Notice the star bowlers on television and you'll see that the first place a bowler looks after he picks up his ball is at his starting point.

In recommending a stance position, I suggest you keep your feet placed together with left foot slightly forward of right, knees bent, ball held waist high and in line with right shoulder, with the elbow tucked in closely to side of body. The wrist should be fairly straight and the thumb between 10 and 11 o'clock.

## Del Mar Debry Is Saturday

Swift three-year-olds take their final steps toward the Del Mar Saturday when they clash in the 26th renewal of the \$15,000 added La Jolla Mile, the week's climatic stakes presentation at Del Mar.

The La Jolla Mile figures to attract all of the West's finest sophomores, including the recent winner of the Oceanside Handicap, R. E. Hibbert's classy Irish-bred import, Sky Gipsy II, and Fletcher Jones' Fleet Host, winner of the Hollywood Derby.

Making their Del Mar debuts in the La Jolla Mile will be Howard B. Keck's Drin and El Peco Ranch's Hill Clown, two formidable stretch runners. Drin won the Cinema Handicap and was second to Fleet Host in the Hollywood Derby, while Hill Clown accounted for the El Dorado Handicap.

Other prospects for the La Jolla Mile include Pakin and Root's The Bagel King, Martin Traub's Baby Quinault, Flying M. Stable's Dominar, Frank M. McMahon's Aqua Vite, W. F. Fortier's Galanomad and Dr. Walter D. Lucas' Rulark.

The Del Mar Derby, which annually determines the season's sophomore champion, is slated for Aug. 27.

## Mt. Miguel Senior Attends Workshop

Adele Paterson, a 17-year-old senior at Mount Miguel High School, is currently enrolled in a two-week, all-expense paid journalism, Radio-TV, and Public Relations Workshop being held at California State Polytechnic College in San Luis Obispo.

The workshop, which is sponsored by the Los Angeles Herald-Examiner and the college's journalism department, is staffed by 22 men and women who are considered some of California's top journalists. The staff is headed by Ralph Alexander, prep sports editor for the Herald-Examiner.

During the two-week period, the 32 students who were selected from the southern California area, will delve into the various facets of journalism, particularly emphasizing the art of sports writing.

Adele was selected on the basis of her ability and interest in writing, her grade point average, and an interview conducted by Alexander.

She will be managing and news editor for the 1966-67 El Trovador staff at Mount Miguel. She is also a member of Quill and Scroll and California Scholarship Federation.

## Need For Peace Officers Stated

Attorney General Thomas C. Lynch has announced that 15,000 new peace officers will be needed in California during the next five years. He said there is concern that qualified applicants may not be available for the positions.

He based his statements on the results of a new survey conducted by the State Peace Officers Standards and Training Commission.

"The 15,000 figure is a minimum that will be needed to fill vacancies created by retirement, resignation, termination, and other reasons, and to fill new positions which will be created to provide police service to the State's expanding population," Lynch said. "In effect, this means that by 1971, a number of new peace officers equal to half the state's present force of 33,000 officers will be needed."

## We Have Freedom of Choice; Let the Choice Be Right

J. Edgar Hoover, director of FBI, using words that anyone can understand, sent out a bulletin to all news media the other day concerning today's morals.

In a paragraph so well put, that it could very well be used as an extension of the Constitution, Hoover said that law enforcement, in its day to day operation, deals primarily with one of the most elemental concepts of mankind — the difference between right and wrong.

"Over the years the citizens of this country, through their representatives in Congress and State legislatures, have written our Nation's concept of this difference into our laws and statutes," Hoover said.

Then he adds, "Unfortunately, the concept of right over wrong is not as clear and strong in the hearts and minds of present-day Americans as it was in the hearts of our forefathers. Acts that are wrong, illegal, and immoral are condoned or ignored by much of our society."

"Many persons have no compunction about committing illegal acts because they feel secure in the knowledge that if detected, they stand an excellent chance of 'beating the rap.' To their way of thinking, even though guilty, 'justice is served' if they can escape punishment through legal loopholes or technicalities.

Hoover continues: "The increasing number of youthful criminals on our streets leads to the inescapable conclusion that many of our young people are not being taught, by word or example, the simple difference between right and wrong. Permissive parents who pamper their children are in fact failing their children. In many homes, weak alibis and excuses are replacing the teachings of the Ten Commandments, and the Golden Rule is obsolete. Some young people who should be receiving moral training, discipline, and guidance in their homes, schools, and churches instead are left to the guiles of false leaders. The distinction between right and wrong becomes distorted and seemingly unimportant to these impressionable youth.

Our birthright of freedom and liberty would not have been gained had the men of Valley Forge and Bunker Hill let their convictions lie listless in the bottom of their hearts. Neither will these precious rights be preserved unless we do more to uphold Lincoln's strong belief that "right makes might."

All citizens must earnestly re-dedicate their thoughts and actions to the principles on the Stone Tablets. Let every person, young and old, in his personal, business, and social life, proudly stand for what he believes to be morally right, law-abiding, and honorable. We live in a republic famed for its freedoms, including the freedom of choice. When it comes to choosing between right and wrong, let us be certain we perpetuate this freedom by making the right choice," he concludes.

technical experts in special fields could be called in from a central service agency.

"Not less than one secretary for each three teachers would be provided and all non-instructional record keeping would be done by a clerical staff in the school office.

"This brief sketch, in bold outline only, of an elementary school is neither reverie nor fantasy," Corey said. "It describes what we already know we should be doing in an educational program for young children. It is neither revolutionary nor innovative. Such a school would be organized merely to do what we have long preached we should be doing in elementary education.

Cost Increase  
"The only aspect of this picture which could be considered revolutionary is that it would cost about \$1,000 per pupil per year — or about twice today's average expenditure. However, if this be dreaming, then school finance leaders should do some more dreaming," Corey asserted.

"We are being told that this is the kind of school needed in the culturally deprived areas of our big cities. It is more than that," he concluded, "it is the kind of school program which every American child deserves, whether he lives in Watts or Beverly Hills."

## Reagan Speaker For \$100 Dinner

Ronald Reagan, Republican candidate for governor of California, will be the speaker at a GOP fund-raising dinner Sept. 30, in Hotel del Coronado, it was announced this week, by Robert J. Cooney, chairman of the \$100-a-plate affair, who forecasts a record crowd for the annual event.

This will be the 16th annual \$100-a-plate dinner to raise funds for GOP election campaigns and to help finance year-round headquarters operations. The affair last year drew a crowd of more than 750 to hear Reagan, who becomes the first speaker to address the annual GOP function on two occasions.

Patterson N. Hyndman, local businessman and a member of the San Diego County Board of Education, will be Master of Ceremonies at the Sept 30 meeting, Cooney said.

Tickets go on sale Aug. 8. Reservations for tickets may be made at Republican Central Committee headquarters, 440 San Diego Trust & Savings Building, or by telephoning Miss Pam Parks, executive secretary of the dinner committee at 232-6701.

Because a capacity crowd is expected to attend the Sept 30th function, table reservations will go on a "first-come first served" basis, Cooney said.

## Dental Assistants Earn High Rating

This year's dental assisting graduates at Grossmont College have set a near-perfect record in the national certification examinations.

C. Allen Paul, Dean of Technical-Vocational Education, has received notification from the Executive Secretary of the Certifying Board of the American Dental Assistants Association that, of 25 Grossmont College dental assisting students who graduated in June and took the comprehensive examination, 24 passed and have been certified by the national organization.

In order to qualify for certification the future dental assistants were required to prove by written examination and actual demonstration a high level of proficiency in operator chair-side assisting, reception and secretarial skills, and dental laboratory technical work.

"The unusually high percentage of graduates qualifying for certification can be attributed to the excellent curriculum developed by the college's Dental Assisting Advisory Committee, the quality of instruction provided by the college staff, and the desire to learn and enthusiasm of the girls themselves," Paul said.

## YOUR DOLLARS andrew baldwin WHAT ABOUT YOUR ESTATE PLANNING?

The orderly arrangement of a person's assets has come to be known in recent years as "estate planning."

Difficult as it may be to find some little time during a busy day to think about plans for protection and security of your dependents, it is nevertheless an obligation to find the time for your future security.

Every property owner, of course, should have some knowledge of just how an estate is planned.

Sometimes estate planning articles may tend to confuse the reader by their intricacy of detail covering tax-saving methods, and the basic element of family security may be obscured. We would like to concentrate on the fundamentals of estate planning. However, as death taxes are high, the use of legitimate tax-saving methods to provide more security for the family cannot be neglected.

An up-to-date Will, based upon full consideration of your own family circumstances (one which has been recently revised to reflect any family changes, new tax laws, and property holdings), is of course a necessity.

A complete estate plan also must coordinate all property interests, not only property which will pass by will, but also joint tenancy property, life insurance, and trust interests.

The modern estate plan frequently makes use of the trust device. In some instances a living trust can provide advantages not always available through a trust established by Will.

Both types of trust may be designated to reduce estate and inheritance tax costs. Perhaps for more important, however, are the benefits that such trusts offer in providing for the financial security of family members and dependents.

An important part, too, of a modern estate plan is the use of the management and investment services provided by modern trust companies. The experience and skill of our trust institutions is being called upon more frequently than ever before to administer estates, as executor, and to manage the properties placed in living and testamentary trusts, as trustee.

The experience of such institutions in handling investments, as well as the benefits of collective investment programs, such as common trust funds, are becoming better known and used.

Therefore, we plan in this series of articles not only to discuss modern estate planning techniques and the impact of death taxes, but the duties of an executor and trustee.

Trust company representatives can often be helpful in a preliminary analysis of the facts and assets of an estate in relation to economic needs, and to explain the services of their institution in managing property and investments and in performing their duties as executor and trustee.

When an individual, therefore, decides to go to his attorney to have his Will drawn or revised and his personal estate plan designed, he will be better informed and have a greater knowledge of the modern services available to him.

It is the attorney who has the sole responsibility of advising his client as to the law of Wills and decedents' estates, the law of trusts and future interests, and the law of real and personal property. It is he who, after full consultation with his client and a full acquaintance with the nature and extent of his client's affairs, applies these laws to the individual situation of his client and designs the estate plan. In the next two articles we will talk about the advantages of a Will.

## Rolling Wheels Bring Monies

Rolling wheels provided California with nearly \$1 billion in motor vehicle fees and fuel taxes in fiscal 1965-66, State Controller Alan Cranston reported today.

This is \$71 million more than during the previous fiscal year. All told, motor vehicles meant \$956 million in fees and fuel taxes for the state, and its counties and cities, Cranston said.

The largest share, 768 million, was derived from highway users taxes - the tax on gasoline and diesel fuel, drivers' licenses and registration fees, and other fees for public motor carriers and operators.

Of this, a total of \$112,601,326 went directly to California's counties during the 1965-66 fiscal year which ended June 30. San Diego County's share was \$5,723,361.54.
